

Low-Cost Health Services for Farmworkers & their Families!

Are you connected with your local health center?

Health centers are located all over the U.S. and are available to ALL farmworkers (including H-2A/ temporary workers) and their families even if you do not have health insurance.

Health centers offer low-cost services based on income and family size.

Health Center services can include:

Medical treatment when sick or hurt

Vaccinations

Health education (heat stress prevention and diabetes management)

Mental health services

Medical exams & health screenings

Pre-natal care

Dental services

Prescription medications

Stay healthy and get connected to a health center near you! Most health centers have staff who speak Spanish or interpretation for other languages, and transportation to make your visit easier!

To find your nearest health center, contact
Call for Health at +1 (800)377-9968
or through WhatsApp at +1 (737)414-5121,
or by opening your phone camera over the
