

THE COVID-19 VACCINE

WHAT HAPPENS WHEN I GET IT?

EVERYONE HAS THE RIGHT TO GET VACCINATED!

Step

1

AFTER GETTING THE VACCINE:

- It's possible that you'll feel fine, or that you have pain in your arm, headache, fever, chills, nausea, muscle pain, or tiredness for 1-3 days
- If you are going to move for work in the next few weeks, ask the clinic to write down the brand name of the vaccine

Step

2

IF YOU GET A VACCINE THAT REQUIRES TWO DOSES:

- You'll need to get the second dose 3-4 weeks after the first one
- You should receive both doses to avoid getting sick with COVID-19

Step

3

AFTER GETTING ALL THE DOSES NEEDED:

- You should keep using a mask, washing your hands, and keeping 6 feet or 2 meters apart after getting vaccinated
- If you have more questions about the vaccine, ask your health care provider.

It is important to continue wearing a mask, washing your hands, and staying at least 6 feet away from others as long as this is recommended by public health experts.

Are you an agricultural worker in the United States and want to know when and where you can get vaccinated? Talk to your health care provider or call the Call for Health line at:

1-800-377-9968 or send us a message on Whatsapp: **(737) 414-5121**
