

Benefits of Joining the Ag Worker Access Campaign

Scan this QR Code to sign up!

TOOLS & RESOURCES

Campaign members receive access to Ag Worker Access Campaign-specific, downloadable tools and resources to help raise awareness for the Migratory and Seasonal Agricultural Worker (agricultural worker) population.

- Slides and presentations
- Social media collateral
- Campaign graphics
- Commemorative artwork & Zoom backgrounds
- Archived webinars and more!

CONNECT

Campaign members receive invitations to participate in Campaign virtual and in-person meetups and events at Agricultural Worker Health Symposia and other conferences.

WORKFORCE DEVELOPMENT & TRAINING

Campaign members have access to customized training opportunities to assist health center staff in better understanding and accurately identifying & reporting their Ag worker patients in UDS.

Additionally, Campaign members have access to technical assistance and Program Action Planning to assist in reaching goals.

HOW THE CAMPAIGN STARTED

The Ag Worker Access Campaign was conceptualized by the Ag Worker Health Committee and launched in 2015 as a joint effort by the National Center for Farmworker Health (NCFH) and the National Association of Community Health Centers (NACHC). We, along with health center staff and other health champions knew that more could be done to increase access to quality healthcare for America's agricultural workers and their families. The result was the Ag Worker Access 2020 Campaign, which has since been renamed the Ag Worker Access Campaign.

CAMPAIGN TASK FORCE

The Campaign Task Force is comprised of representatives of health centers, primary care associations, health center-controlled networks, National Training and Technical Assistance Partners (NTTAPs), and other organizations representing education, housing and labor. In general, the Task Force guides Campaign activities to increase access to care for Agricultural workers by:

- Identifying challenges
- Exploring and launching innovation
- Formulating recommendations
- Supporting collaboration and coalition building
- Identifying and disseminating promising practices
